The Villages® Health

UnitedHealthcare®

Working Together to Build America's Healthiest Hometown®

Dr. Jeffrey Lowenkron
Chief Medical Officer

Welcome to The Villages® Health. We are building a novel and superior health care system to help the people we serve become part of America's Healthiest Hometown.

The Villages Health seeks to replace the current complex, fragmented, fee for service model of care with one that is delightfully simple. Health care exists to help keep people healthy. We strive to engage with physicians, nurse practitioners and physician assistants who understand that helping patients stay healthy is a team sport. All the people who work in our care centers help assure that addressing the needs of each patient is central to our work.

The Villages Health is patient-centered, where all components revolve around the patient, assuring the experience is excellent. We are community-based, with a strong belief that the great majority of health care services should be rendered close to home. We are primary care-driven, believing relationships between patients and primary care physicians lead to better informed, more relevant care plans and better outcomes.

This is all done within the construct of the Patient Centered Medical Home. Within our model, the coordination of care with specialty physicians is better and leads to better results for patients. We are committed to providing you better care. We encourage measuring and reporting of our outcomes by others.

It is with great commitment to your health and well-being that The Villages Health is ushering in 21st century health care.

Sincerely,

A handwritten signature in black ink that reads "Jeff Lowenkron M.D., M.P.P." The signature is written in a cursive, flowing style.

Jeff Lowenkron, M.D., M.P.P.

PHYSICIANS

TVH uses an extremely intensive process of recruiting only board certified physicians from throughout the U.S. who share our care philosophy of being patient centered in all we do. We give care to and develop care plans for our over 43,000 patients to keep them as healthy as possible so they can enjoy retirement to the fullest.
